Disposable Gloves have been part of our life for more than 100 years.

It was one life-changing innovation that still delivers the 「Touch Of Life™」 to people around the world today. Because every Touch has a meaning.

Why choose **SRITRANG**™ GLOVES

Designed with our 「Touch Of Life™」 philosophy, we follow strict controls to produce medical examination gloves of many different kinds that inspire the highest level of satisfaction and protect every **TOUCH with CARE.** We push at every step to reach the limits of our imagination creating hand protection that is suitable for many applications including protection of you and your loved ones.

“ Sri Trang is just like a mother bird protecting its babies with care until they can spread their wings and

To Deliver 「Touch Of Life™」
On A Global Scale ”

HISTORY

OF

SRITRANGTM
GLOVES

Sri Trang Gloves (Thailand) Public Company Limited (STGT), is a leading Thai multinational disposable gloves company. Headquartered in Hat Yai, Thailand, we design and develop Medical Examination and General Purpose Disposable Gloves protecting trillions of TOUCHES in more than 170 countries.

In 1989,

Sri Trang Agro-Industry Public Company Limited (The World's Largest Fully integrated Rubber Company) joined hands with leading European glove maker in a Joint Venture Company to produce latex gloves to protect medical personnel against the HIV outbreak. The Joint Venture continued to growth into Thailand's largest Medical Examination Gloves Company.

In 2017,

the companies demerged and **Sri Trang Gloves (Thailand) Public Company Limited (STGT)** was born with a stronger spirit and a mission to fulfill the company VISION "To Deliver 「Touch Of Life」 on a Global scale".

STGT continues to take pride in our attention to detail at every production step; from the careful selection of raw materials to continuous research and innovation. We take pride in producing gloves that deliver 「Touch Of Life」 and create a vast variety of brands to serve the needs of our user.

Today **SRI TRANG GLOVES** has become Thailand's best selling brand and most trusted gloves brand by leading 5 star international hospitals, leading manufacturers and daily businesses. Sri Trang protects billions of professionals in various industries, including healthcare and medical, food processing, food handling, manufacturing and operations where hygiene standards come first.

RAW MATERIALS

We put our soul into research, development, sourcing and quality control, with the aim of creating the best quality concentrated latex and acrylonitrilebutadiene formulas to ensure every piece of Sri Trang Gloves shines.

Our goal is to ensure each product reaches its maximum potential to protect the essence of the raw materials and ensure every touch is delivered with care.

We believe that
the essence of
Sri Trang Gloves'
products
starts with
raw materials.

NATUTEX™

NATUTEX utilizes our special aged latex formula specifically made for SRI TRANG GLOVES (THAILAND) PLC.

We pay attention to the core of fresh latex. This process begins by selecting the best clone, the right area of land, and employing the best cultivation and harvesting management practices. Sustainability is a key feature of NATUTEX. Starting from well-managed forests, proper and advanced waste management, safety practices for all stakeholders, and renewable biomass energy throughout production, allows SRI TRANG GLOVES (THAILAND) PLC to deliver a high quality product that is environmentally friendly.

We combine more than 30 years of experience in research and development to create the most suitable formula. NATUTEX is enhanced flexibility, comfort, grip, low protein and sustainability throughout the product life cycle.

Fully Intergrated
Low Carbon Supply chain

7 Concentrated Latex Factory **530K** Tons Per Annum

By buying this (product)
you help take care of the
world's forests

FSC™C149260 • www.fsc.org

FSC™ : Sri Trang Gloves (Thailand) Public Company Limited We are FSC™ certified (FSC™C149260). By choosing FSC™ certified Latex Gloves, you are supporting responsible management of the world's forests. Sri Trang Group are proud to be the world's first fully integrated Rubber Company to be certified FSC™ for the our entire LATEX supply chain from upstream to downstream in 2019, i.e. from the farms where the trees produce latex, the latex collection points, the concentrated latex factories, the examination gloves factories and finally to the shelves for sale. Sri Trang is 100% committed to selling responsibly produced products that meet the high standards set by the FSC™. This truly makes Sri Trang's products highly sustainable.

*Soft
Nitrile*

Soft Nitrile : We use our expertise and deep knowledge of sourcing and testing to ensure that all Nitrile Butadiene raw material from our suppliers meets STGT stringent standards. Combined with year of continuous research and development, Sri Trang Gloves' Nitrile formulas have been tested and improved over the past decade. The result is enhanced flexibility, softness and comfort, higher grip, less smell and suitability for many applications worldwide.

SRI TRANG
GLOVES

are produced with STGT's most
advance glove making technology.

Highly Tunable

STGT glove production machines are built for the future with highly tunable technology. We can endlessly upgrade each part of our production line to maximize performance and efficiency. Because of these unique characteristics, STGT is able to continuously improve our products with minor fine-tuning to existing equipment. This ensures a steady supply of product, as production lines do not need to shut down for extended periods or prolonged upgrade projects. STGT is built with continuous improvement in mind to make a high quality glove now and for the future generations.

Incredible Performance

The engineering team at SRI TRANG GLOVES designed and developed one of the fastest production machines in the world! The industry leading machine is able to reach record outputs of more than 50,000 pieces of high quality medical gloves per hour. The engineering team at SRI TRANG GLOVES has more than 30 years of experience in medical glove production, which helped STGT realize one of the most powerful medical glove production machines. Apart from performance, STGT machines utilize our state of art waste management system combined with biomass energy to remain environmentally friendly. This continues to solidify STGT as a truly 「Touch Of Life」 glove maker.

Extremely Resilient

Our versatile production lines were designed with performance and flexibility in mind. We build machines that are extremely resilient, and they can readily switch between Latex and Nitrile glove manufacturing. Additionally, the production lines are able to produce different specifications in order to meet the demands of a rapidly changing and growing global market.

SCIENCE & TECHNOLOGIES

GLOVES DESIGNING PROCESS.

FULLFIL THE NEED

Sri Trang Glove's products are produced with a combination of highly experienced professional team and a industry leading manufacturing facility. This provides consistent quality with Sri Trang Gloves.

UNDERSTANDING

We design our gloves based on anthropometric measurements and user function, ensuring every piece of Sri Trang Gloves perfectly fit and enhance the performance of every touch.

QUALITY CONTROL

We strictly control every aspect of Sri Trang Gloves to create reliable, high quality and safe gloves that provide confidence for every touch on a global scale.

Sharing Touch of Love

We are committed to conducting business with transparency and fairness to produce quality and environmentally friendly products that deserve to be called the "Touch Of Life", and we care about all stakeholders in the supply chain, from upstream to downstream. Not just for the people but for every life in this beautiful world.

Leader in renewable energy

Gloves production
Renewable Energy **100%**

To combat climate change and protect the environment, Sri Trang Gloves appointed an Energy Conservation Committee to establish energy saving measures to operate in accordance with the Energy Conservation Promotion Act 1992. This committee is directly responsible for the brilliant idea to power our production lines using biomass only, rather than depending on fossil fuels, to reduce our carbon footprint. A practice that we still follow today.

Friendly Production

facility and improve prosperity.

Gold level
plaque of honor
waste water
management

'Sri Trang Gloves' production facilities were built with the aim to create high quality gloves while protecting the environment, creating jobs, build economic in the area and bring prosperity to the city. Our state of art waste management system ensures that the environment around and within our facilities is safe and healthy.

SUSTAIN ABILITY

We build
